West Bengal State University

*"Most designers hand off to developers. Most developers can't design. I sit in the middle — and that's exactly where **the best digital products** are made."*

PROFILE

UI/UX & Frontend Designer with a focus on user-centered design, interface development, prototyping, and AI-assisted workflows. Combines strong visual design principles with frontend development to create intuitive, functional, and engaging digital experiences. Builds **custom 3D assets** and turns them into **interactive 3D websites**.
